Special presentation Recognizing and using opportunities

An increasingly complex market environment also opens up many opportunities for the carpentry trade, but it is important to keep a sense of orientation. The Fachverband Schreinerhandwerk Bayern (Bavarian Carpentry Association) shows the variety of ways it supports the guild firms: for example, with the purchasing association "creatis", the CE marking system "fenster marke tischler/schreiner" or the new licence solutions for smokeproof and fireproof doors. Also presented is the nationwide "Carpenter vs. Joiner" campaign to attract young people into the trade.
